

Caroline	Burkett	Please, don't give away citizens access to research and communication based upon profits and making large corporations larger. Save something for independents. Limited services, poor customer service, and loss of control of our access to the internet--NO
Anne	Burkhardt	
Paul	Burks	
Bruce D	Burleigh	Cut the CRAP and quit taking payoffs and dissembling!!! Make the Internet into a Public utility like it should be!! Better yet resign - someone other than a Communications Industry Lobbyist should lead the FCC!!! bdburleigh@gmail.com
Gerald	Burnett	
John	burnett	
Denise	Burnham	
Margaret M	Burns	Another example of the power of money! Despicable ...
Thomas	Burns	Free speech requires equal access. Let's not rig internet speech so the wealthiest can grab the microphone away from all other speakers. We are already suffering enough threats to our democracy.
Stephen	Burns	I do not want to be squeezed out of a reliable internet by commercializing access to the highest bidders. Bad enough that we're living with Citizens United. What else do we have to lose to corporate controls.
Bruce	Burns	The FCC & federal regulators MUST reclassify broadband service as a public utility which would allow for the requirement of net neutrality rules, & reclassify ISPs as Title II common carriers.
Tracy	Burns	
Bruce	Burns	
Judith	Burns	
Barbara	Burr	I am a small business owner and I should not be held hostage by a phone company in order to have equal access to my internet as the big, wealthier corporations and companies. The internet needs to remain as it is -- open access without discrimination.
Marcia	Burr	
Richard	Burris	Please keep the internet as a neutral and accessible tool for all.
Nancy	Burroughs	The internet should remain as free and open as possible without special privileges being given to large corporations or the highest bidder.
Jacklyn	Burns	
Grace	Burson	
Bradley	Burtner	
Susan	Burton	High internet speeds going to the highest bidders will injure democracy and DESTROY small businesses. PLEASE do not allow fast lanes for those who pay higher rates.
Vic	Burton	The internet may just be the last best bastion of democracy.
Donna	Burton	
Christina	Burton	
Georganne	Burton	We have a small business and use the internet daily. Please do not do this! Keep the internet for everyone without favoring the wealthy.
Carol	Busam	Keep the internet free. There is enough control of over the American people without interfering with our internet access!!
Elena	Busani	
Ruth	Busch	Don't divide us into the rich and the rest of us! Pikitty says it is ruinous for democracy!
Ann	Buscher	
Christine	Bush	Here's an insanely simple idea for the FCC: stop taking meetings with lobbyists. Period. It is utterly transparent that those with fast lanes to your offices want to sell fast lanes to their services. We neither need or want either kind.
Kenneth	Bush	It's time that government agencies start working for the people again, not the corporations. The internet is today's public airway to be used, primarily, for the public good not corporate profits.
Nancy	Bush	
Ronald	Bush	
John	Bush

Martha W D	Bushnell	Please keep the internet free and as it is right now. I need the internet to keep up with what is happening in the world.
Wayne	Bushnell	
Fred	Bushroe	The USA must keep the internet Neutral to stay competitive in the World marketplace. A Neutral Internet spurs innovation and allows the USA to reinvent itself, causing tremendous wealth.

Mary	Bushur	I must have forgotten the clause in the Constitution that said that inequality in all its forms is the way of the American people. Whether online or off, inequality is never acceptable. We need net neutrality.
Louise	Buss	Please leave the internet the way it is and do not allow fast lanes for the few.....it works well the way it is. Thank you

Jennifer	Butler	
Robert	Butler	
Kirk	Butler	
Martha	Butterfield	
Lisa	Butterfield	We need to keep the internet equally open to all and not have our access limited by a handful of corporations. Customer service and quality from those same corporations now who want control is terrible. It will only get worse if you let them grab control

Ken	Butz	
Thelma	Butzlaff	Save the internet... Save Democracy..
Dawn	Byford	No fast and slow lanes!
N.	C	FREE INTERNET FOR EVERYONE NO CORPORATE ABUSE OR PRIVILEGES.
Elizabeth	C. Ramage	Equal access is the basis for all our laws and regulations--or it should be! Big money/ big business should not give anyone an unfair advantage to the best the 'web' has to offer. When we all had house phones, we all had the right to equal service.
Nicole	Cabano	I already overpay for decent internet speed Dont allowing a few to hog all the bandwidth. They will only increase costs for the lil people like me to access the internet which is ESSENTIAL if a person wants to be connected to the civilized world
Douglas	Cabot	Please be an agency acting for all, not just the few.
Lisbeth	Caccese	KEEP THE INTERNET open so that all people have the same access speed.
Xochitl	Cadena	
Doris	Cadigan	It is unacceptable and against the American narrative to grant special consider to the powers to be and not "we the people"
Robert	Cady	No fast lane, slow lane! The Internet MUST be all about true equality. Please fully support real net neutrality. Thank you!
Ruth	Cain	The internet is the last refuge from the corporatocracy in this country. Allowing it to be sold to the highest bidder is a serious loss for democracy in this country and a signal that the system is completely corrupt. Ruth Cain, former DNC member
Lisa	Cain	
ann	caito	This is why average American is fed up with corporate power money interests. The net has always been an equalizer. What are you trying to do?
Stephanie	Calcavecchio	
Harold	Calder	The telecom and cable companies have been trying for years to become Internet gatekeepers allowed to charge for Internet use or faster speeds etc. They want the government give them this 'rent' advantage they haven't earned or deserve.
Cindy	Caldwell	Please don't allow companies that are virtually monopolies to decide which companies get the best service.
Richard	Caldwell	
James	Caldwell	
Edward	Caldwell

Patrick	Cameron	
Alexander	Cameron	
Lawrence	Camp	Keep a level playing field for the internet.

Ericka	Camp	
Jeff	Campbell	f the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Susan	Campbell	Huge corporations already have too many advantages over the people. Corporations are not people and money is not speech. We need REAL net neutrality, not Big Brother.
Pam	Campbell	I count on the government to protect various aspects of my life. I expect them to protect my access to affordable communication. This is not an opportunity for huge corporate entities to make more money and only leave lesser access to the rest us
Judith	Campbell	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
Marilyn	Campbell	It is very UNdemocratic to give the biggest bullies their own fast lane over my voice, over my neighbor's voice. We believe that all "men" are created equal, so we need a fair playing field. The "air" waves belong to the people!
Allan	Campbell	Please save net neutrality and classify the internet as a utility. We shouldn't have to pay more for faster speeds.
Colin	Campbell	
Robert	Campbell

Dallas	Cantland	We the people, cannot just sit idly by and let this happen. . .
Jeff	Cantor	Please do not destroy democracy.
David	Cantor	
Nancy	Cantor-Rapp	
Kenneth	Cantrell	The US relies upon a free & open internet. Giving large corporations preferential treatment will spawn a wave of backlash not only at these companies, but at government website. Remember what Anonymous has done before? Multiply that 10,000 times!
Jay	Caplan	Free speech should not be put on sale. Support net neutrality!
John	Caplis	I will not support any legislator who votes to end net neutrality.
Ann	Capotosto	net neutrality is essential to an open exchange of ideas and news. destroying it essentially destroys freedom of speech and creates a society were only money talks.
Suzanne	Capowich	
Mark	Cappetta	
Richard	Capps	The internet needs equal access for everyone. If you allow only the wealthy subscribers high speed at the cost of the masses you might just as well shut it down and go home. The US already has the slowest service of all developed nations
Ellen	Caprio	Please keep the internet a level playing field.
Gina	Caracci	Sadly, too many people are passive & dont care about things unless it affects them..they are glued to the internet....mess with it and you will see an uprising like you have never seen before...I almost welcome it because we are SICK OF THE GREED!!
Michael	Carano	Do not privatize the internet and sell what should be public to private corporations. I am appalled at the control the corporations have on policy, even within the FCC. Do what is right for citizen, the people of the nation, not the moneyed interests.
Gregory	Caravelli	
Robert	Caraway	Keep the internet open to all.
Linda	Caraway	Please keep the United States the home of the free by supporting a free internet. Thank you so very much!

Rick	Carlos	Net neutrality. Now and forever!
Joel	Carlson	Destroying net neutrality will destroy the internet and our democracy.
Mary	Carlson	ITS TIME TO VOTE FOR THE AVERAGE AMERICAN. REAL NET NEUTRALITY
Rita	Carlson	Please preserve a neutral internet. Fast lanes means the FCC (US government) values money over ideas.

Anne	Carpenter	The Internet needs to be reclassified as a utility. That 's the only way we can keep it open and equal for everyone. It's as simple as that.
Benjamin	Carpenter	
Hope	Carr	Broadband access is a utility. You can call it net neutrality or you can call it a level playing field, but the internet should not discriminate. Thank you for your consideration.
Scott	Carr	Codifying inequality into the "net" for the sake of profiteers is exactly what the The FCC exists to prevent. PLEASE follow your mission & prevent the perversion of our "net" equality.
Gaile	Carr	
Moses	Carr	
Donna	Carr M.D.	
Magali	Carrasquillo-Ramirez

Paul D.	Carrington	
Patty	Carroll	Quit catering to huge corporations that take over our lives and dictate how we eat, read, entertain and lull us.
Thomas	Carsner	The Internet should be neutral as to user.
Cliff	Carson	There is only one high speed internet provider in my area. Until there is more competition the government must regulate and look out for the interests of the user. Allowing "fast lanes" for some is not the way to do it.
		Fast lanes for the few mean slow lanes for everyone else, which would confine alternative, independent, and non-profit voices to the second tier. STOP SELLING OUT TO THE HIGHEST BIDDER!! KEEP THE LANES OPEN AND FREE!
Sharyl	Carter

Guy	Casey	
John	Casey	We need REAL net neutrality - no fast lanes

Zach	Castleman	I'm for net neutrality, and oppose the proposed rule changes.
Carl	Castore	
Mary	Castro	Keep the internet fair for EVERYONE.
Sally	Caswell	Freedom of speech is important for all citizens of the world. Allowing only rich corporations freedom is a step backward into the 17th century or before. Please allow culture to advance, not retreat.
Irene	Cataldo	
Carol	Cate	Enough of corporations controlling our society!
Elizabeth	Catenacci	THE INTERNET WAS CREATED WITH OUR TAX DOLLARS.....DO NOT GIVE RULERSHIP TO "BIG MONEY."
Sisater	Catherine	Approving this would cause disastrous consequences.....PLEASE CHOOSE WISELY.
Janna	Caughron	Do not restrict access or use of this utility necessary to life in today's world.
E.Frances	Caulfield	Absolutely keep the open rules of the Internet free for all of the people. Do not hand them off to Verizon or any of the corporates. Do not compromise the Internet freedoms we enjoy now. Hands off! Keep corporations down! Up with the people!

Ron	Chacey	
Pamela	Chaddock	It is critical to the founding principles of our nation that the INTERNET REMAIN FULLY OPEN to the PEOPLE with NO CAPITULATION TO CORPORATIONS !!! FULLY OPEN EQUAL PATHWAYS. I trust you see the WISDOM of this.

Joseph	Chaiklin	
Michael	Chakoian	The internet as a free and easy flow of information to all, including the disenfranchised, shouldn't be sold to the highest bidder.
Mikki	Chalker	
Kim	Chamberlain	I am a person and should be considered as more of a priority than a corporation. Keep the internet neutral.
Mae	Chamberlain	I will sign these petitions until FCC guarantees Net Neutrality!!
Linda	Chamberlin	
Barbara	Chamberlin	Yes, I am very much for net neutrality, it's working, why "fix" it--and that's what this would be doing. There are so few level playing fields, allow the internet to be the one.
Jeannine	Chambers	The Internet was built by tax-payer money!! We already have the most expensive & slowest Internet world-wide, thanks to network providers. Value-added is: faster, cheaper & comparable to Europe & Asia.
Claire	Chambers	
Barbara	Chambers	
Lindsay	Chambers	
Leland	Chambers	
Allan Mclane	Chambliss Jr.	The trans-formative potential of the internet will be lost if the fast lane model is accepted - it would be a major social mistake to turn the internet into a communication field of haves and have-nots. Please act accordingly.
Jess	Champagne	
Sally	Champlin	DO NOT CURB THE INTERNET! It is fair and free to all -- keep it that way. Do not do the bidding of the uber-rich! THEY are not We The People!
Pamelea	Champoux	This old lady doesn't want to wait in line behind commercial favorites. Keep it available to all.
Wallace	Chan	The internet is just like a public utility now. It should be freely available to all and not regulated or encumbered by corporations who will turn it into their own license to print money.
Ken	Chandler	Please stop selling our democracy to the highest bidder. Keep the internet as is. This is very important.
Greg	Chandler	
Kang-Min	Chang	
Bill	Chapman	Its the god damn corporations acting in THEIR intereests again.
Philip	Chapman	The internet must remain open to all. It cannot be allowed to be controlled by telecom and cable companies.
Diane	Chapman	This is working leave it alone and stop making ways for rich people to make even more money,
Brian	Charest	
Jeff	Charity	
June	Charles	Shame on this corrupt governmental nonsense.
Gloria	Charlier	The internet was developed with the idea in mind that the playing field would be more equitable. We need real net neutrality!
Nancy	Charlton	What a rotten thing to do, commercialize the internet even more than it is already! Don't do it. Keep the Net the same rules for everyone.
Donna	Charter	Real net neutrality is one of the bedrock foundations of democracy. "Fast lanes" put more and more power in corporate and wealthy hands and lessen the voice of ordinary American citizens.
Marvin	Chartoff	Everybody should have equal access to the internet-no favorites please.
Fred B.	Chase	The airwaves belong to THE people, not SOME people.
Daniel	Chase	
Bryan	Chasney	
Lyle	Chastaine	It should be a basic human right to have free and equal access to the internet.
Billy	Chasteen	Once again the regulators and law givers roll over on the common American to enrich the powerful, the well endowed -- American royalty'
Steve	Chatneuf	Small business and the free exchange of ideas and information in America depend on net neutrality. Don't let us down!
Fred	Chauncey	Why should the big companies be allowed better access?
Stan	Chaz	Your proposed rules would mean fast lanes for the few mean slow lanes for everyone else - not what is in the public interest.
Charles	Cheesman	Open internet & fair access to internet isn't something we can afford to compromise.

Anne	Cheng	Keep the Internet fast and free - NO LEVELS of service!
Judy	Chernak	I don't download movies or music. I would be relegated to the slow lanes if this goes through. Why?? Please support my right to fast internet even if I'm not a major user!
Marilyn	Chesnik	LEAVE THE WEB OPEN AND FREE - STOP CORPORATE GREED!!!!
Barbara	Chestney	
Eileen	Chieco	
Mike	Chilcoat	Dear FCC, you are responsible for keeping a level playing field. Corporations should have no more rights, access or control over what anyone can say or do on the internet than the individual citizen in the U.S.
Russell	Childers	I want our government agencies including the FCC to stop listening to and putting the interest of big money corporations ahead of the interests of the people in this country. Otherwise, we've lost this democracy after only 235 years of the experiment.
David	Childs	CEO's are not more important than a huge outcry of US citizens. The FCC's job is to protect citizens from these money-grubbing CEO's. Do the jobs we pay you to do.
William	Childs	If corporations are "people" (Supreme Court) why should they get preferential treatment over the rest of us?
Michael	Childs	
Peter	Childs	
Mark	Chinn	DO NOT allow the internet providers to segregate internet access so that there is no more "equal access" to all users.
David	Chinn	I support net neutrality. Continued build-out of fiber optic will help reduce the pressure. Additionally, costs are then shared amongst all subscribers. Let's move forward.
Samuel	Chiodo	
Andrea	Chitouras	
Costa	Chitouras	We cannot go backwards in an otherwise very successful and universal activity. The public owns the internet, not private companies.
Roberta	Chorlton	I am for equality in communication. Don't ruin the internet for the majority of its users.
Doris	Chorny	
Timothy	Chreene	
Heather	Chrisman	I would think it was your job to regulate in a fair and democratic manner. The top internet speeds shouldn't be for those that can pay the most but rather an open forum.
Monica	Christen	
T	Christensen	Keep our access equal
Joan	Christensen	Protect free speech on the internet.
Jane	Christensen	The internet has been and should stay equally available to everyone, not put out for bid by service providers. A change in net neutrality would lead to a type of censorship for profit.
Susan	Christensen	There are way more of us "little guys" than there are of the "big guys." How about serving US instead of licking the boots of corporate America? Do NOT okay faster Net for the big companies at our expense.
Sandra	Christensen	To favor one group of people over another is discrimination.
Percy	Christensen	
Alice	Christensen	
Fred	Christensen	
Steven	Christian	
James	Christian	
Sue	Christiansen	INTERNET NEUTRALITY NOW!!! NO EXCUSES; NO EXCEPTIONS!!! THE BIG CORPORATIONS HAVE WAY TOO MUCH MONEY AND POWER AS IT IS! NOW GIVE THE REST OF US SOME POWER AND SAVE OUR DEMOCRACY OR YOU'RE DEAD!!!
Kenneth	Christiansen	Like railroads, the Internet needs to be free from discrimination in any form.
David	Christiansen	
William & Natalya	Christiansen	
Ruth	Christie	I'm opposed to any changes in the FCC regulations that would give preference to "fast lanes" for the big players.
Terry	Christie	Simply - Don't do this, and hurt the little guys! Don't SHAME yourselves!
Lilith	Chunn	
John	Church	The Internet is for everyone. Big corporations do not need or deserve to be given a bigger share. Do your jobs, keep net neutrality!
Roberta	Churchill	
Pat	Churchman	
Virgil	Ciabattoni	AND THE NEXT STEP IS --- TAKING EVERYTHING AWAY FROM THE COMMON MAN?
Rachel	Cilley	

Judy	Cisney	
Alan	Citron	
Mike	Civitello	We need real net neutrality. Not corporate control of public space.
Joan	Clague	
William	Claiborn	
Marilyn	Clare	
Henry	Clarence	We need absolute net neutrality for the for flow of information. In a democracy this is very important so that people can make informed decisions.
Gillian	Clark	An open internet is a right not a privilege for the wealthy.
Robert	Clark	An open internet is essential and fundamental to democracy, for freedom of expression, sharing of ideas, and learning.
Gary	Clark	LEAVE THE INTERNET ALONE!!
Douglas	Clark	Like public properties the electromagnetic spectrum should be treated the same way it is owned by all Americans.
Pamela	Clark	Once again corporations over HUMAN BEINGS! ENOUGH!!!!!!!!!!!!
Diane	Clark	Please do not allow any major telecom or cable company to gain the advantage of a faster access to computers via the internet. Keep the internet neutral so all can gain access equally and in an unbiased way, no matter how much money they have. Thank you.
Mary	Clark	Save the internet for us common folk!
Patty	Clark	The Internet NEEDS TO BE EQUAL ACCESS for EVERYONE I DO NOT want my information dictated to me by Large Corporations!!! I want my small business websites to work!
Rebecca	Clark	The internet should be a level playing field. It is very important not to give corporations priority over individuals and non-profits for speed and access.
Tonya	Clark	This is outrageous and totally lawless! It's all about controlling the people and silencing our voices....some of us are not as stupid as you think we are! Stop it!!
Susan	Clark	
Bonnie	Clark	
Palmer	Clark	
Jean & Donald	Clark	
Jerry	Clark	We need real net neutrality. There should be no fast lane for bigger players---all should have equal access with no favoritism towards those with greater wealth. The net should be open to all on an equal basis.
Andrew	Clark	We need to level the playing field; equality for all is what the United States of America is founded upon. All this "fast lane / slow lane" does is segregate ... from those that have money and those that do not. That is not just or fair.
Lynne	Clark	Why should the telecom and cable companies have control over the Net? They didn't control the airwaves. If it was out there and you had the equipment, you could see/hear it. Keep the 'Net free and un-controlled!! Thank you!!
James A	Clark Jr	The Internet has always been free...
Billy	Clarke	Do not permit the speed of the internet websites to be dictated by economics.
Len	Clarke	
Karl	Clarke	
Ken	Clarke	
Bruce	Clarke	We need to keep our democracy!!!!
Philip	Classen	I do not want corporations to have special access to the internet that common folks will not have. All democratic societies are built on encouraging equal access to communication and use of electronic resources...Dissenting voices need equal access.
Carol	Claus	I request that the FCC take authority over the Internet under Title II of the Telecommunications Act and regulate it as a telecommunications service (a public utility) to protect net neutrality.
Ina	Clausen	Being disabled I appreciate being able to use the internet for communication and keeping up with the world. Fast lanes means the haves have more and the rest of us are regulated to slow service. Please don't do this.
Anne	Clawley	US citizens need to have equal access to a free Internet not controlled by monopoly mega corporations. It's important for a democratic and free society. How can small businesses & individuals compete with huge corporations.
Barbara	Clawson	We need real net neutrality. I urge you to not allow fast lanes for the few.
Janice	Cleary	I find it hard to believe that the FCC would think anything else but net neutrality is simply absurd. Keep it that way
Harry	Cleaver	Don't kill the goose (the Internet) that's laying the gold eggs of the greatest commons in the history of mankind.
Michael	Clegg	

Thomas Wade	Clegg Iii	There is only ONE LANE - and it's for everyone.
Catherine	Clement	Internet is a public utility and should be classified and treated as such.
W.F.	Clement	
John	Clements	We all, rich and poor, need equal access to the Internet. Please keep net neutrality! Our democracy will suffer if we are more and more divided into the privileged wealthy and the poor. Cynthia F Clements
John	Cleveland	I am a strong supporter of net neutrality. Big money interests should not be favored and should not be allowed to control how the rest of us use the internet.
John	Cleveland	
Matthew	Cleveland	
Darley	Clevenger	Please maintain real net neutrality - do not allow the big money and big corporations to push the rest of us into the "back lanes".
Andre	Clewell	A free Internet prevents our Democracy from transforming into fascism. We would become another China. I know. I spent a month there this year and I realize how important a free Internet is to our own freedom.
Hugh	Cline	Do not let corporate interests control the internet. Read Tim Wu's book, The Master Switch: the rise and fall of information empires. Have him testify for your deliberations.
Michael	Cline	Why is it that several third-world countries already have high-speed (fios) internet service throughout their countries and we are kept in the internet dark ages by Time Warner, Comcast, Viacom etc.?
Brian	Clinton	Though there are many details, the core of the issue is a no brainer. The net MUST stay neutral.
Nancy	Cloud	Do not sell our rights to internet speeds to the highest bidders. We need these speeds availability to everyone if we are to have a functioning democracy. "Might does not mean right."
Lonny	Cloud	The internet does not belong to corporations! We are sick of our government selling out to the highest bidder!
Douglas	Clough	
Betty	Clouse	How dare you we will revolt on this that's for sure! We will quit using the internet assholes!
Elgie	Cloutier	Please leave my online access alone! We certainly have a right to decide for ourselves what services we want - NOT YOU!
Mary Ann	Cluggish	A lack of net neutrality is going to be very hard on schools and libraries!
Clifford	Clusin	
Mary	Co	Please save internet neutrality.

Susan	Cochran	The internet should be a fair playing field. No special paid for advantage.
Roger	Cochran	
Marti	Cockrell	We need REAL net neutrality!
Skye	Coe	NO! NO! NO! NO! NO!
Craig	Coelho	This is a nothing but a gift to the telecoms, allowing them to hijack the internet and use speed and access as vehicles for profiteering. The Internet is a Public Utility and is NOT yours to give away.
Curtis	Coffer	
Howard	Coffin	Please do not allow big business to dominate the internet. It should remain equally open to all.
Susan	Coggins

Eleanor	Cohen	net neutrality is a must - keep communication free !
Donald	Cohen	No slow lanes for poorer people!!!
Ian	Cohen	Please don't turn us into China or North Korea

Ellie	Cohen	
Anita	Cohen	

Sandie	Cohen	
Merle	Cohen	
Darren	Cohen	We need real net neutrality. There should be no fast lane or slow lane on the internet. Now is the time to show leadership and let your actions provide an example to others that listening to the people, the voters and do what is right.
Robert M	Cohen Md	The Internet was developed by the US Federal Government, not Verizon, AT&T, Comcast or any other corporation. From the start, the one sacred concept was a wide open internet with net neutrality. Do whatever you have to do to maintain that status
Barbara	Cohn	
John	Coker	Private individuals and not-for-profit organizations need to continue to have first-class connectivity to the Internet. The internet should NOT be for sale to the highest bidder.
Paul	Colby	The internet does not belong to the Big Telecommunications companies. It belongs to all of us. Stop this "fast lanes" talk right now.
Laura	Colby	
Dick	Cole	Keep your hands off the internet, it belongs to the people. It is public domain.
Jeff	Cole	More of the same Republican facist antics. They "sort of" understand "all men are created equal;" they just don't see "equal" as a constant. Rich assholes are more equal.
Colette	Cole	Please start a new direction for our country. One based on a democracy where the good of a few does not outweigh the good of the many.
Joan	Cole	
Lee	Cole

barbara	colleran	please defend REAL net neutrality
Tala	Collier	
Fran	Collier	
Larissa	Collins	I do not support allowing corporate telecom businesses to sell "fast lanes online to the highest bidder." The internet should remain an open source for all. Do not allow this travesty to occur!
Gregory	Collins	RECLASSIFY! It's the only way that keep Big Telecom from censoring content and strangling access through unreasonable paywalls. We need REAL net neutrality, not this window dressing proposal.
Cleo	Collins	The internet is too important to allow a few corporate companies to control access for the small companies and non-profits. A tiered system will mean internet haves and have nots. I don't want that to happen in our country, or culture.
Erin	Collins	The internet should be free and open to the public. It should not be an auction for those who have big money.

Laurent	Comes	

Scott	Commer	
Joe	Commons	
Meredith	Commons Russo	
Ann	Concannon	NO to ruining the INTERNET for the majority.
Janice	Cone	
Rex	Conger	give us real REAL net neutrality.....corporations will be the ruin of all of us.....they are not people!!!!!!!!!!!!!!
Jan	Conklin	I think it's your responsibility to keep the net neutral, free and open to everyone, not just the wealthy few who can afford the jacked up prices sure to result from verison or other private companies taking control of portions of it.
Lumaron	Conklin	The internet must and should be available to the public, that is all the people, it is their voice in a democracy and to deny this freedom is to deny what the people say and think in our society.
Jean	Conley	I know I speak for all Americans when I say that we don't want to see irritating, stupid ads. It's irritating and for me, I BOYCOTT all companies who advertise on the Internet. I don't want my time wasted having to wait for that junk to be over with.
W.	Conley	Information is
Kerry	Conley	Please let there be one place in our society where there is a level playing field. The rest of it has become corrupted by the influences of money and power. We beg you to let the internet remain the great equalizer.
Laurel	Conley	
Nora	Conley-Talley	
Albert	Conliffe	
Patrick	Conlon	Does every little thing in this country have to be sold off to those with the money to buy it??? Capitalism DOES NOT EQUAL Democracy!
Nancy	Connally	Please do not take away Real net neutrality for everyone...the hope of our world is intercommuncation between all peoples regardless of income levels. Thank you for thinking of ALL of us.
Ken	Connell	Keep the level playing field for the Internet (where everyone including those seeking to profit from introducing a fast lane for big spenders) . . . This is vital for the democratic and open nature of Internet communications . .
Robert	Conner	
George	Connolly	
Eileen	Connor	Please do the right thing and keep the Internet free and open to all equally. Do let let huge corporations with plenty of money dominate with the fastest speeds. This is America and we are all equal here. Money should not rule!!
Alan N.	Connor	
Edith	Conrad	
Walt	Conrad	without net neutrality we can defund the fcc
John	Consentino	
Mara	Constantine	
Gene	Conway	
Elizabeth	Conyers	I strongly oppose any action of the FCC that would give major telecom companies and cable companies unprecedented control of the internet,,, a control which would adversely affect individuals & non-profits and limit free speech!
Diane	Cook	So much of our life is already controlled by the corporate world - at least let the internet remain free. We need net neutrality - NOT fast lanes for major telecom and cable companies.
Nancy	Cook	The internet is the best thing that's happened to freedom of speech since this country began. Don't sell it to the highest bidder.
James	Cook	
Kathleen	Cook	
Perry	Cook	
Kathleen	Coolbaugh	There's enough inequality in the U. S. already. Let's keep the net neutral and equally accessible to everyone!
David	Cooling	More now than ever we need Net Neutrality!!!
Deborah	Cooney	
Mary	Cooney	
John	Cooper	For all who hate or fear true democracy, go right ahead and hand the Internet over to those masters of deceit, manipulation and disinformation, the corporatocracy.. For those who love democracy and want to see it flourish, guard the Internet carefully.
Valerie	Cooper	the internet belongs to everyone, if they don't want their information seen, then they should not put in on there, they should not be in control.

Craig	Cooper-Wyble	Keep the internet free from corruption by large companies.
Peggy	Cope	For growth of small business and future innovation, the Internet needs to be classified as a utility. I support Net Neutrality!
Damon	Copeland	
Keeya	Copeland	Why must you continue to dismantle the voice of the independent media through your obvious collusion with large corporations. This is not a free market but a monopoly.
Margaret	Copi	The net is like the air, it belongs to noone, it belongs to everyone. Please regulate ISPs as public utilities.
Fred	Coplin	As respectfully submitted via other such venues and a personally submitted comment, again the internet is for everyone at the same speed. Please reinstate to original designation of phone carrier rules.
David	Coplin	keep net neutrality...don't take the bribes!
Eileen	Corbiere	
Brock	Cordeiro	
Sheffield	Corey	The American Taxpayer paid for the development and adoption of the internet; originally for the government(.gov), the military(.mil) and the educational institutions(.edu) to communicate together. We the People own the internet. not the corporations!
William	Corley	
Jared	Cornelia	
Guy	Cornelius	Please ensure net neutrality and please do not adopt policies that would enable "fast lanes" for a fee. We must ensure equal network speed and capacity for nonprofit, independent and alternative voices.
Christy	Cornelsen	
Marianne	Corona	
Roger	Corpolongo	
F	Corr	The Internet should be democratic. Please maintain "net neutrality."
Edmund	Correia	
John	Cort	Please don't let wealthy corporate interests dictate the type of internet access available to human citizens.
Josephine	Cortis	
Rolland	Cory	serve we the people ... not corporatism... rightNow
Martin	Cosentino	EXPRESS, FAST and SLOW are relative terms. But money changes the equation. ALL LANES have equal access, and the EXPRESS lane for a small fee to private sites. Access to ALL government/public sites is FREE, paid for with our taxes.
Laurie	Cosgriff	
Merle	Cosgrove	
Vicki Jo	Costanzo	Don't do anything to hurt the majority of us from accessing quick internet. Don't let huge corporations gain more control. You are supposed to be on the side of the little people. Not on the side of huge companies.
Cynthia	Costell	
Edward	Costello	Neutrality---real neutrality--is what the Internet needs. We are watching and voting.
Pat	Costello	We need net neutrality. We do not need a few corporations dominating the net.
Alana	Cotten	
Kevin	Cotter	Keep the internet open. Do not allow these corps with their BIG MONEY to control the content that we already pay access for via our ISP's this will be another wound in the side of the consumer and I guarantee that it will ultimately have an adverse affect
David	Cotton	
Emmaly	Couch	To give control to anyone over Internet access at any speed is a violation of the freedom of speech. Please protect it.
Marybeth	Coulter	
marie	countryman	
pat	courtney	The internet has developed into an economic giant because it was not allowed to become the property of the rich and powerful. This action will create for the internet standards enjoyed by the monopolistic airline, banking, and telecommunications sectors
Linda	Couture	

Burl	Covan	
Sandi	Covell	
Donald	Cowan	We need REAL net teutrality.
Dave	Cowen	
Chadwick	Cox	Don't let the mega companies control the internet that is a PUBLIC creation.
William	Cox	Freedom of speech means "NO" to giving "fast talkers" advantages!
jackie	cox	The internet is nothing more than telephone communications, in the freedom of speech without special people allowed more broadband than common people.restricting our usage is another act of treason
Sheila	Coxon	My tax dollars funded the research that gave America the internet - don't allow big money to take it away from America ... it belongs to all of us because we paid for it. thank you
Mary	Coyne	Please vote for all people we need real net neutrality.
Lisa	Crafts	Net neutrality is of enormous importance to an open and equitable democracy. The net is for everyone to share information on, and it would be a travesty of everything our country stands for to allow fast lanes for the few.
John	Craib-Cox	Do not allow fast lanes for the few to go forward. This will totally destroy equal access to the internet. Giving special privileges to a few large corporations will deny equal user access and ownership of the internet to all users.
Patsy	Craig	Do not let this happen to the internet!
Wendy	Craig	Protect open, affordable access for the people. Corporations aren't people. Remember the public you serve when you decide on the future of communication and information.
Eric	Craig	Save the people who vote, not the corporations who pay you
John	Craig	
Mary Ann	Cramer	
Morrie	Cramer	
Curtis	Crandall	Internet is for everybody. Don't let Verizon hold me hostage.
Donna	Crane	Don't mess with out Internet. The airwaves belong to us all, we just allow companies to use them along with us ....and they already charge us a bundle for doing so through them. It's enough.
Jeff	Crane	
Nancy	Crane	
Barbara	Crane	
Jim	Crane	
Bruce	Cratty	Keep the internet open and neutral. Do not separate high speed with pay to play!
Nicola	Crawford	I pay over \$50.00 a month now for my internet access. It keeps getting slower and slower, but Comcast says there is nothing they can do about it. It is because the cable lines in my town are over 50 years old and they will not come in and replace them.
Bruce	Crawford	I strongly object to "differential speeds Internet access" which negates Net Neutrality. Verizon et al are private monopolies. FCC policy should NOT favor Verizon et al over the Greater Common Good.
Robert	Crawford	The Internet should remain a common carrier and not act as a gated community for the rich.
Bonita	Crawford	
Franklin	Creasman	Please make it fair for everyone not just the ones with big bucks.
Clayton	Creekmore	
Mari	Crego	Corp. America has enough, PLEASE let simple one person American have something in our favor.DON'T SALE us out!!!!!!!!
Tyler	Creighton	
Elizabeth	Creighton	
Richard	Creswell	I need to hear news the internet providers don't like. Don't give them a fast lane that effectively shuts down independent media.
Gary	Crethers	As a blogger I depend on ease of access to the internet. As it is my internet access has slowed since the recent court decision regarding net neutrality. The internet should be treated as part of the public commons.
Adolfo	Criado	
Sherwin	Cribb	
Stephen	Crilly	The FCC should not seccumb to and perpetuate the evolving plutocracy. Supporting net neutrality and avoiding the influence of money is the right thing to do. We will also need to keep an eye out for any revolving doors to the industry.
James	Crist	Put "We the People" over "We the corporations"!! Don't sell us out!!!
Brayden	Criswell	No, no, no!
Lynn	Crocka	Please do not let the FCC support and allow fast lanes to go forward for major companies that would result in slow lanes for the majority of individuals.

Jessica	Cromer	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. Do not allow this. Do not allow yet another Federal decision to be so out of touch as to alienate and enrage the American people more and more. Do the right thing!
Paula	Cronin	Allowing fast lanes does not serve the public. Please save net neutrality.
Nancy	Cronin	
David	Cronin	
Harry	Crosby	We are asking you not to deprive the average citizen of services the transfer of which to big money interest is being considered by the FCC. Do not deprive us of the important benefits for everyman of the system as it is.
Mary	Cross	Please do not give the rich and powerful yet another advantage on the unequal playing field.
David	Cross	
Richard	Crouch	
Barbara	Crow	Every time a good thing comes along some money-grubbing corporation gets with the "powers that be" (like yourselves at the FCC) and screws it up for everyone. Corporate paws OFF the internet - leave well enough alone.
Sandra	Crow	Free access to the internet is a great equalizer in a world that is increasingly becoming economically polarized. It should not be something that corporations with deep pockets can buy. Please keep it free and equal for all.
Carolyn	Crow	Preserve true internet neutrality -- no fast lanes. Everyone gets an equal chance
Charles	Crowder	Please leave the internet free, open and without corporate priorities. This is the only medium left that truly is for everyone. Weigh the interests of 200 million people against 5 - 20 giant companies.. Corporations make enough already.
charity	crowder	
Lawrence	Crowley	The Internet should be treated like a public utility, not something to be sold off to the highest bidders. Do not privatize the Internet.
Terry	Crownover	Everyone already has to pay a premium to their ISP to get decent download speeds--DON'T MAKE IT WORSE by also limiting the content providers.
Mary	Crozier	
Kurt	Cruger	This will continue the separation of wealth and class.
T.	Crugnola	Get corporate dirty hands off the internet.
Marjorie	Crump-Shears	
C	Crutchfield	Net neutrality is essential for the American citizen. Do NOT allow telecom and cable companies who think greed first and will optimize profits at the expense of users and suppliers. The net should be considered an utility and/or public service.
Steven	Cruz	Don't let them do it! We will pay for a mistake like this and may not ever recover.
Bobby	Cruz	Go rot in h*ll, FCC motherf***ers!!!
Chandra	Cruz	
G.	Cruz	
Lynn	Cruze	As MY protector, it is time for you to PROTECT real, flesh and blood people FROM fake people like Verizon and others who WILL LIMIT MY ACCESS to a free and open internet. Your proposed rules were written by the Telecoms. That is just wrong.
Don	Cryer	yes to net neutrality and full unrestricted access; no to 'fast lanes', corporate control & restrictions; no to greed, lobbyists, Corporations, politicians, and a for-sale FCC. The public interest should trump Corporations
Ann	Cude	I am so disheartened by the idea that another public asset is up for sale to rich corporations. Please, preserve my right to fast, efficient Internet. No corporation built the Internet, not Verizon nor Time Warner--don't sell out the public's Internet.
Mike	Cullinan	There is nothing NEUTRAL with this new rule to allow a different set of rules for a fee - it is in a very real sence a form of censorship. Corporate money is ruining our political system - it needs to stop at some place - make sure the internet is free
Leonatdo	Culptta	
David	Culver	The internet is for ALL OF US, not just greedy profiteers like the telecom companies. Your job is to see it stays that way, not line the pockets of corporate America.
Bruce	Culver	
Diana	Cumming	
Judy	Cummings	Keep your hands off the World Wide Web (aka, Internet). This is our way of finding out what is going on in the Country and specifically in our government. It is our Social Media as well as shopping and ordering online. Leave us alone.
Leslie	Cummings	
Robert	Cummiskey	We are entitled to high speed internet space. It should not be reserved to select entities. Don't forget that you are representing ALL peoples of America, and that includes me.
Martha	Cuneo	

Peter	Curia	THE INTERNET IS A COMMON CARRIER.
Kevin	Curran	Leave the Internet alone. It does not need more government intervention.
Anne	Curran	We don't want a two tiered internet. We've already got a two tiered system of "justice".
David	Curren	Please maintain net neutrality for the American people, the citizens you represent.
Erik	Curren	
c	currey	
Bob	Currie	The Internet is vital to help people around the world access information that gives them hope and improves their lives. It would be unconscionable to allow greed and profit to blunt human progress.
Danielle	Curry	I will seriously consider cancelling all internet services if net neutrality is not preserved.
Linda	Curry	The Internet works well as it is. Please do not put more power into the hands of corporations.
Richard	Curry	
Anne	Curry Sanchez	If you do not leave things as they are- You will be knowingly and maliciously, in my opinion, be putting another nail in the coffin of this Democracy- which is near death as it is.
Jenn	Curtis	Absolutely not ! Do not do this ! We are already suffering enough and folks are sick and tired of this type of treatment. We do not want FCC's plan to continue. We've given up enough to the good old boys & what they want !
Philip	Curtis	No fast lanes. No slow lanes. Keep all lanes free and open . . . Phil Curtis
Cynthia	Curtis	
Michael	Custard	
Robert	Custis	Keep the internet open to all. Just being rich or powerful should not give one privileges over the rest of us. We, after all, are the majority.
Rebecca	Cutler	Please do not turn the Internet into a class system! We all need to be able to grow and learn. Please keep it accessible to as many as possible. What will happen to libraries, non-profits, people that work from home? Please consider this.
Joe	Cuviello	Just like free traffic on roads is essential to fair and equal competition and trade across the USA, so too is Internet traffic dependent on fair traffic. Do NOT allow the service providers to charge higher and lower rates based on bandwidth.
Denise Ann	Cygan	I HAVE ONLY A FEW WORDS NO - NO - NO - THIS IS A BAD IDEA FOR THE REST OF US WE ALREADY HAVE ENOUGH BAD IDEAS OUT THERE COULD WE MAYBE START THINKING ABOUT THE LITTLE PEOPLE HERE AND GIVE US SOME GOOD IDEAS - SOMETHING WE WILL SAY -YES -YEA -YES, TOO
Cf	Czajkowski	The internet being a major source of news and communication for so many of us in the US, net neutrality is key to democracy!
Kate	Czekala	No special interests for the Internet!
J	D	Let's catch up with other "developing" nations and have equal higher speeds for everyone. In comparison, the USA is slow....
Martin	Dabrowski	
John	Dacey	I'm against!
Harry	Dadras	
Gavin	Dahl	
Katie	Dahl	We need a guarantee, not a commitment, that the internet will remain a level playing field. Fast and slow lanes will decrease civic dialogue.
Joy	Dahlgren	All internet users should be treated the same. People should not have to pay more for more speed.
Karen	Dahn	It's taken. Boomers a decade or so to catch up with the skills to utilize and benefit from computers. PLEASE consider the limited resources of retirees who rely on equal access to the internet!
Ben	Daigle	Digital Rights are Human Rights!
Nancy	Dailey	The internet should be for all equally.
Joyce	Daily	
Marion	Daitzman	
Gropp	Dale	Internet access is already limited to those who can afford to pay for the provider. Please don't further limit our access by selling fast lanes to the highest bidder.
Felicia	Dale	Net neutrality is a HUGE deal for everyone and MUST BE KEPT FREE for EVERYONE!
Barbara	Dale	The Internet has become a necessary tool and thus falls in the same category as existing utilities. Just as telephone and electric service are available to all equally, so should the Internet be.
Marcia	Dale-LeWinter	A 2-tier internet is discriminatory, and will result in a significant loss of effectiveness for NGOs and nonprofits. The overwhelming power of corporations will be enhanced, to the detriment of everyone else!
Jenette	D'Alessandro	
Mary	Dally-Muenzmaier	
Richard	Dalton	The Internet should be a highway open to all equally.

Karen	Dalton	
Thomas	Daly	Anything short of an open and equal internet is insanity.
Michael	Daly	I'm really tired of crony capitalism
Deanne	Daly	Stop selling out the American People just to make a buck!
Paul	Daly	
Nancy	Daly	You don't need my thoughts to know how important it is to keep a free internet
Diane	Damian	
Leonard	D'Amico	Real net neutrality please!
Jane	Danen	Please keep a semblance of democracy and keep the internet free and open.
Mary	D'Angelo	
Kirk	Dangler	I ASK THAT THE INTERNET REMAIN FREE! ESPECIALLY FOR THE SAKE OF THE FUTURE! !
Susan	Dani	This country GREW and PROSPERED of FREE ENTERPRISE!! Let's not forget. but do forget GREED!
Gloria	Daniel	Keep the playing field open for innovation! That's what makes money, creates jobs, and levels the playing field.
Albrecht	Daniel	This is supposed to be the land of the free....
Ed	Danielson	I support net neutrality.
Michael	Dannan	We need REAL net neutrality
Aaron	Danneman	
Kathleen	Dantonio	
Dan	Danziger	
Tamara	Darbin	We need true internet neutrality... Equal service available to all.
Sarah	Darling	
Marilyn	Darling

John	Dart	
Melon	Dash	Is this America or is Country Koch? If it's America, keep the internet open and free with no ties to corporations deciding on access. If it's not America, I don't want to be here.
Catherine	Dash	Two words: NET NEUTRALITY. Same speed for everyone: FASTEST SPEED. Simple. Make it so.
Sandip	Dasverma	The FCC can't abide by the interest of few, to go against the interest of many. It is very shocking that corporations like GOOGLE disappoint us by joining lobbying organizations like ALEC.
Randall	Daugherty	Broadband Internet access is a necessity in our society. Maintaining net neutrality will ensure the greatest access to this resource. If reclassifying broadband Internet as a utility is the most expedient way to accomplish this, please do so.
Karen	Daughtry	The internet is not private property, it is a public utility, and needs to be treated as such, with equal access for all.
Christine	Daum	Bigass corporations should not take the internet freedom from small users!
Lee	Daum	Please don't allow TWCV, Verizon, and Comcast to charge higher prices than they do already. They are already among the wealthiest companies and they don't treat their customer well. We' have two tier treatment. If they could get away with it...
Paul	Davallou	As a high tech person who must work from home part of the week, I must have guaranteed consistent and reasonably fast Internet connection to do my job (database developer).
Michael	Daveiga	
Susan	Davenport	The Internet should be open equally to everyone. The ability to pay should have no bearing on access.
Sharon	Davey	
Jerry	David	
Herman	David	
Carol	David	
Jill	David Czaplicki	
Jay	Davidowitz	
Judith	Davidson	A neutral, level-playing-field internet has become vital to democracy.. It keeps us informed, connected and active. Outside of the Kochs and Roves, no political group can afford to bid on a fast lane. We will be overwhelmed, swamped, ignorant, silenced.
Rebecca	Davidson	To "fast-track" internet access for well-funded coproarte entitties flies in the face of why the internet exists today. It's wrong on so many levels for exacerbating the growing disparity between wealthy and poor.
Maryellen	Davidson	
David	Davidson	

Jen	Davies	Stop this! And while you're at it, don't allow Verizon (and others) to throttle targeted streams. Just because they own a competitor, they should not be allowed to stomp on Netflix bandwidth. I have no high speed alternative. Stuck with them!
Gyllian	Davies	We all need free and equal access to what is the equivalent of a public utility.
Derek	Davis	Does it always have to be about the rich? Can't the little guy ever catch a break? Eventually we'll just ignore it- we lived without it before- we can do it again! Don't bite the hand that feeds you...
Norman	Davis	Equality for all.
Phillip	Davis	Government agencies should act in the interest of citizens and stop allowing big business to dictate their actions. You are appointed/hired to serve the people not corporations!!!
Judith	Davis	Net neutrality is essential for business and educational purposes. It is an important part of the commons and should be treated as such. I urge you to act to protect this critical communications utility from being sold to the highest bidder.
Jim	Davis	Nothing civil to add.
Suzanna	Davis	Our first amendment should not have to be purchased at higher rates.
Morton	Davis	Perhaps we are different... you may have no care regards your inability to seek and find wisdom, love, life knowledge, shared photos of events... others perspective of the world... Please honor the collective society's regard for this freedom of access..
Gene	Davis	Please leave the internet as is. Do not give the greedy corporations what they want. Look out for the 99 per cent, not the 1 per cent.
Ann	Davis	Real net neutrality is necessary for a real democracy.
Donna	Davis	Rule again favoritism for the wealthy! The Internet is for EVERYONE!!!
Bill	Davis	Rule in favor of the people .
Sandra	Davis	Thanks for help and important to all users!
Stan	Davis	The air and the Internet (ARPAnet was fully funded with US tax \$) belong to the public, not corporations.
Bonnie	Davis	The common man has already lost their voice with Citizens United. Don't take away more of our voice. Individuals and small businesses need support. We need to be doing more to break up monopolies instead of just helping the powerful.
Trish	Davis	The essence of the internet is that it is free for all to enjoy
Scott	Davis	The implications of ISPs setting bandwidth caps on certain sites will stifle competition, and make internet innovations stagnate.
Roger	Davis	The internet is a public network, plain and simple. Everyone depends on it!
Joan	Davis	The major telecom and cable companies have far too much power now. The American people are counting on you to protect our interests and net neutrality by protecting free and equal access to the internet. Do the right thing.
Vincent	Davis	The net should be regulated as a utility.
William	Davis	
Chris	Davis	
Patricia	Davis	
Nancy	Davis	
Dawnette	Davis	
Kevin	Davis	
Johnny	Davis	
Terry	Davis	
Summer	Davis	
Brenda	Davis	We need net neutrality because small startup companies will not be able to afford the cost of doing business with the monopolies of Verizon and Time Warner.
Ellen	Davis	We need REAL net neutrality.
Scott	Davison	please do not sell fast lanes online to the highest bidder. Fast lanes for the few mean slow lanes for everyone else, which would confine alternative, independent, and non-profit voices to the second tier.
James	Davisson	
Nancy	Davilantes	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane.
William	Dawley	
Brian	Dawson	Do not allow different data speeds across the internet. All information must travel at the same rate to provide the entire human race with equal access to the most important resource of our new age: information.
Linda	Dawson	We need REAL net neutrality.
Charles	Day	Do not pander to the giant comm companies. Leave our internet alone.

Page	Day	Our taxes PAID for the research that created the internet that is the PUBLIC COMMONS. SAVE REAL NET NEUTRALITY!
Charles	Day	
Patricia	Day	
Marlys	De Alba	Please do not take away net neutrality. Fast for some means slow for others.
John	De Forest	This petition ought not to be necessary.
Victoria	De Goff And Family	
Barry	De Jasu	Lost to our Democracy are the print and broadcast media. Most of these media are owned by a very plutocratic few. And now we are fighting to prevent the monied corporations from running our internet. This is not the dealings of a Democracy.
Ronald	De Lair	We need net neutrality to keep a level playing field for users. Please do not give in to the major telecom and cable companies. Their objective is to squeeze more profit. FCC was created to protect the consumer not big corps.
Adolfo	De Martino	Just like no one ever thought of stopping Gutenberg NO ONE shall even think of tampering with Universal evolution of the human species on this Planet
Caroline	de Mauriac	Please do the right thing and listen to the voices of the real people who depend on the internet for nearly every aspect of our lives. Don't cave in to the telecommunication company lobbyists. We need REAL net neutrality now.
Jim	De Seve	Keep the internet free of corporate fast lanes!!! it is the PEOPLE'S internet
Edward	De Shae	
Hoyt	De Vries	
Jacqueline	Deacy	Please don't end net-neutrality.
SUE E.	DEAN	Average citizens are depending on you to keep a free and open internet for everyone. DO NOT LET US DOWN. PLEASE!
Josh	Dean	Please do not further the monopoly that these companies already have over us.
Rachel	Dearagon	When printing was invented books became universal. That is why and how the modern world exists. Suppose printing had been restricted to publishing of edicts, bans and bulls--- think about it and don't restrict the internet.
Jay	Dearien	Playing around with the inner workings of the Internet with only profits in mind could kill the Goose that Lays the Golden Eggs on the economic side, and also poses huge risks for Free Speech and Economic Competition and Innovation on the other.
Marjorie	Dearmont	
Diane	Deas	
Debra	Debruin	This is a very basic issue of justice, freedom of expression and free access to info. Critical to democracy. We need genuine net neutrality.
Erika	Decarlo	
Patricia	Decaro	I am nearly 70 years old, and am able to remain cognitively involved with both work and family and friends, despite being retired, because of the internet. I am not a corporation. The idea of selling to the highest bidder is WRONG.
Ines	Decastro	
Kathie	Decker	Democracy is not intended for the few and the rich. It's bad enough our votes are bought and sold, at least leave us all equal partners in the use of the internet.
Dorothy	Decker	I believe that everyone should have access to ALL internet lanes and hope that the FCC will act accordingly.
Hannah	Decker	The major telecom and cable companies are not suffering now. They're doing just fine. Don't give them faster control.
Marilyn	Decker	
Frank	Decola	
	dediec	
Kathryn	Degelia	
Patrish	Dehler	ABSOLUTELY NOT! We don't want the telecom and cable companies to have control over the internet! That is a really bad idea.
Bernie	Dehut	
Peter	Dekramer	Please, do the right thing: keep the internet open to all, equally.
D.D.	Delaney	Keep equality of access to the internet. Favoring the bigger players over the smaller is corruption, plain and simple.
Priscilla	Delaney	Not until we elect "Green Party", candidates will we progress. Priscilla Delaney Green Party (member) Wynnewood, PA 19096-1526
Debra	Delavan	I am deeply concerned about losing net neutrality. Small businesses and individuals will be at a real disadvantage if anyone can pay for faster internet lanes. We already have very little choice and substandard service from our internet provider.

Michael	Delozier	The internet is a form of communication, just like speech. It should be free for all people. No special interests.
Carol	Delpriori	do not give up the peoples control of the net which is not for sale. it should cost to use the internet. what I pay now for inferior service is a crime. think about the people not special interest.

Fran	Demillion	Please keep corporation 'hands off' our Internet
Gerald	Demonte	
Michael	Dempsey	
Angela	Denham	No way. Dont allow this!
Michael	Denick	
Mr.	Denison	If the FCC's plan to allow fast lanes for the few goes forward, the rest of us will suffer. The deep-pocketed will pay to move their online content at top speed, consigning nonprofit, independent and dissenting voices to the slow lane. Don't allow this!
Margaret	Denison	
Paula	Denissen	There's too much corporate control. Leave some of it for us ordinary Americans.
Sue	Denker	It is important to keep the internet open as an avenue of free speech. Please.
Michell	Denman	We need REAL net neutrality!
Rodenev	Dennehy	We need real net neutrality!
Larry	Dennison	The internet belongs us--ALL THE PEOPLE! Just like any other public resource and especially other communications resources like airwaves, the web should be considered the public domain and it should be regulated by the FCC as such.
Bruce	Denny	
Bryan	Deno	
Estelle	Denslow	Major telecom and cable companies must not . charge more for fast internet. It would confine independent viewers to the slow lane.
Catherine	Dente	Keep a level playing field on the internet with equal speed and equal access for all. Big corporate giants should not get preferential treatment as far as speed or anything else. No fast lanes for them.
David	Denton	If it ain't broke, don't go trying to fix it. Unlevel playing fields are never good for anyone except those on the high ground. Everyone else loses. Please keep the internet open and free.

Margaret	Derian	
Penny	Derleth	The internet is a utility! If you label it that way, we won't have the discussion! If you don't, you are contributing to the takeover of our country by big businesses, which we the people do NOT want!
Linda	D'Errico	Our internet speed is already a crawl compared to countries like Japan. Now the internet providers want to calibrate speed to how much you pay? The Net is a public utility. We need more competition between internet providers, not more power.

Kenneth	Dexter	
Diane	Deyoe	Don't screw over the little guys!
Mark	Deyoung	Listen to the founding fathers of the Internet. Listen to the people. It's overwhelmingly in favor of net neutrality.
S.M.	Di Paola	Are we tired of this, America? WAKE UP!
Diane	Di Prima	The accessibility of the Internet has changed the demographics of "knowledge=power". For the first time in our history, information/self-education is not tied to class. The USA needs to keep it that way if we are to remain a world power.
Donald	Di Russo	The internet should be controlled like a public utility with equal speed & access to ALL !!!

Sylvia	Dickens	We are already divided enough in this country. We all need free and full access to the opportunities the net allows!
Helen	Dickey	No favoritism, that's not the American Way!
Paul	Dickinson	Dear FCC, You are not the politically loaded "Supreme Court." You can make a decision in favor of the people of the USA. Given the Hobby Lobby decision, what if Verizon says "We don't want to carry news we don't believe in?"
Victoria	Dickinson	First, the internet is a PUBLIC UTILITY! Second, we all pay our internet bills, so that's how WE "pay for the internet." Third, EQUALITY FOR ALL! NO FAVORITISM!!! NO add'l charges = KEEP THE INTERNET FREE
Jillea	Dickinson-Fry Rn	We don't have tiered access to phone lines, electricity, water. We should all have equal access to the internet as well. We are all of equal value and it is the governments job to provide equal opportunity for all, no matter the net worth. Thank you.
Betsy	Dickson	Why fiddle with something that is working well? Unless the system's capacity is running out, there seems little need to make it easier for corporations to have priority. This goes against one of the basic ideas of the internet, neutrality.
Linda	Dickter	Please leave the internet open to all. Creating special cutouts for those who can pay harms me.
Noreen	Didonna	Stop the "money talks" attitude that keeps pushing us into the dirt! We all need to follow the Constitution that was written for ALL the PEOPLE!
Andrew	Dieringer	Please stand up for the people and not the greedy corporations.
Kenneth	Dierker	we need REAL net neutrality
Ralph	Dietlin	keep your nose out of the internet and regulate fox noise
Walter	Dietrich	The internet should be free for all of us. If corporations want express lanes then let them pay for a private internet system. Please keep the internet free to the rest of us, the public.
Lon	Diffenderfer	Tax dollars and money paid for Internet access created, built, and expanded the Internet into what it is today, an open medium where anyone can use the bandwidth they purchased to access any information and entertainment they want. It must stay that way.

Deborah	Dinzes	It is critically important that the FCC makes rules based on what is fair and beneficial to all Americans, not just what benefits a few corporations at our expense. It is fair that we should all have equal access to the internet -- no fast lanes.
Paul	Dionne	The internet was created for military use, then was made available to the public. The government has NO RIGHT controlling what we can search, or applying any fees for having such media source available.

Anita	Donahue	We all must rise together. The job of the FCC is to ensure the rules are the same for everyone. We need real net neutrality.

Marcy	Donaldson	Classify the internet as a utility. I can't afford satellite/cable/ telephone now because of usury rates. The internet is a communication tool and given the level of corporate greed, we know what a bad decision fast/slow lanes will be, People matter.
John R	Donaldson	
Sue	Donato	The internet needs to remain a level playing field to all. Please have the courage and integrity to keep it that way.

Rev. Dr/ Daniel	Doran

Deborah	Dorsch	Please please do not do this - we need real net neutrality. There is too much disparity in our nation as it is between the haves and have nots. Please consider this.
Ian	Dorsett	Save us from the rich corporate bullies!
Ryan	Dorsey	
Jeff	Doss	The poor man only has the internet as a level playing field.
John	Doss	
James	Dotson	Dear FCC Staff, Please keep the internet net neutral, so that all voices can be heard equally in the free exchange of ideas which is necessary for a democracy to function.
Mark	Dotson	We already pay more for more bandwidth!
Charles	Doubleday	
Daniel	Doudna	The internet was developed with public funds and the actual humans that comprise the "public " should benefit to the max. extent , not corporate interests, regardless of the Supreme Court attitude.
Kate	Dougherty	The internet should be considered the property of the people and be treated like a public utility. Chattanooga, TN has done this utterly correct. I deserve exactly the same speeds, as any corporate CEO, or head of a Federal agency, like you.
James	Dougherty	
Andronetta	Douglass	As a person starting a small open source software research company, real net neutrality is important for the survival of my business.
Robert	Douglass	Please respect net neutrality. Internet freedom is essential to continue to drive innovation and competition on the internet. I am an aspiring entrepreneur who's dreams could be seriously hampered if you pass this. I am sure many people share my fears.

Steven	Doxas	No "Fast Lane" BS. Make providers treat all data the same.
Tim Aaron	Doyle	

Mr. Michael C. Ford	Dr. Richard B. Marks	The internet was invented to be a free forum, not a profit making machine for a few of the 1% !
Jim	Draeger	This is the same as someone stealing a public resource! Who made you God?
Ella	Dragif	
Martha	Dragovich	The internet should not be discriminatory in any way. To have fast lanes for some who can afford it and slow for those who cannot afford it is patently discriminatory. Do not interfere with net neutrality. Thank you.
Marian	Draje	Please keep the internet open. Make it a Carrier II status.
Corryne	Drake	As a government agency, it is your duty to protect the public. That means actual living people, not corporations. Do your duty. Do not allow corporations to crush citizens' voices.

Donna	Dressler	
Kerry	Drewett	Large corporations and Congress are stealing my rights. IT'S TIME TO STOP NOW!
Thomas	Driggers	I strongly support Common Cause's position on this Internet issue. Do NOT allow the citizens's access to be hampered by corporate dollars.

Carolann	Driver	Free and open internet is a crucial lifeline to those seeking work and a place to live. Housing is already way too high and salaries are not high enough.
J	Droege	
Victoria	Druding	
Jean	Drumm	I disapprove of the control that major telecom & cable companies are seeking to influence the future of the Internet. Please do not put the public in a slower lane as far as access goes!
Shelli	Drummer	This pandering to big corporations needs to stop now!!! It makes people think you may be getting "something" under the table.....hmmm
Bobby	Drummond	
David	Drury	Internet service providers should provide internet service . Not charge by the web site's you visit. .
anna	druse	
Norman	Du Pont	
Carol	Duane	Please, we absolutely need net neutrality!!
Dean	Dubach	Maintain a free and open internet, free from influence from the high bidders and corporations.
Dinah	Dubble	Individuality is the American signature;--and the explanation for our awesome ascent. Now with technology we should be able to dramatically increase that inner flow of creativity,--not instead be forced to succumb to corporate mentality.
Sarah	Dubin-Vaughn	
Deirdre	Dubose	We have enough controls in our life without the government commercializing the internet to the benefit of the highest bidders. How would the FCC improve the internet for the consumers?
Steve	Duboyce	Please ensure that all users can upload and download with the same access to bandwidth and band speed.
James	Dudzinski	Please preserve net neutrality. Prices are high enough as it is.
Rodney	Dueck Md	Remember that the F in FCC means Federal and not Fascist. Ask yourself... Whose side are you on? Are you really willing to cut another of our dwindling threads of democracy? Think about it.
Judy	Dufficy	We need real net neutrality, not corporate giveaways that hinder democracy.
Robin	Duffy	
Patricia	Dugan	Freedom of information through the internet is not the FCC's job to regulate for profits.
Susan	Duhig	I am concerned that the FCC is considering allowing big companies to pay for a faster internet for their sites. The internet is great and transformative because it's been a democratizing force. Keep it open!!!
Henry	Duke	Do we not consider the public communications paths to be equally accessible to all? If we allow preferences to be acquired by bidding wars, the public - US! - will lose our access. Not fair, not free and not feasible.
Marianne	Duke	Everyone should be using the same internet lane.
Nancy	Duke	I live in the country and getting a DSL from ATT is the best I can do. A few years ago it was dialup! Companies incented to do more for wealthier companies rather than their entire base will keep US connectivity speeds at the bottom of the list.

Thomas	Dukes	I fully support true and honest Net Neutrality. A free and open internet, with equal speed and access for all, is vital for our democracy or any such government in which all citizens are created equally.
Michael	Dulak	Dear morons, Okay, become the tyrants you are and the revolution will find you in the end. Have a nice day.
Philip	Dumitru	A Neutral Internet, Please! The internet was created and nurtured by the US government with my tax dollars. Do not begin allowing telecoms to choose content winners and losers by charging for service tiers!
Ann	Duncan	
Martha	Dunetz	
Frances	Dunham	The Internet is, by any reasonable definition, a public utility, a necessary service. Therefore, FCC can and must regulate it to assure its users net neutrality.
Max	Dunitz	Keeping the Internet open is essential for growth, innovation, and free expression. Comcast and company would like the Internet to operate like cable television---extractive, closed, and stagnant.
Dave	Dunkak	You have a moral and legal obligation to keep the Internet free to all people. Cable companies have no legitimate claim to ruling the Internet. The only reason you'll give it to them is if you let them buy you off. Please don't give into corruption.
Craig	Dunkerley	Net neutrality and equal access must be maintained. Please do not implement any regulations to alter this.
Leslie	Dunlap	The FCC's duty is to the public interest, not those of the telecom industry.
Tom	Dunlea	We need REAL net neutrality
richard	dunn	I'm in favor of REAL net neutrality, not fast lanes for the deep-pocketed few and slow ones for the nonprofit, independent and dissenting voices. I thank you for your time.

Ryan	Durfee	
David	Durkee	This is one of the most important issues of our time.
Samuel	Durkin	The internet is essential to modern public dialogue and discovery. Abridging it through sell-offs of what is our inherent right to self-educate, self-publish, and explore our psychological landscape is a serious violation of our democracy.
Marvin	Durnil	
Mary	Duryee	Why fix something that isn't broke? Leave us alone with net neutrality.
William	Dusold	
Christina	Duthie	A slow internet would affect me adversely because I use it to do my job at work. If the big telecoms have it their way my work would suffer and so would every else's. I support Real net neutrality. I oppose the FCC's plan to allow fast lanes for the few.
Stephen	Dutschke	
Arianna	Dutter	
David	Duval

Mitzi	Duxbury	
Edward	Dwyer	
Ryan	Dybdahl	The internet phenomenon/value requires opportunity for all to have equal access to all the information available and to post what they will. This must be preserved so no large provider can censor our news as has happened in the radio and print media.
Dr. William 'Skip'	Dykoski	
Sharon	Dymowski	We need Real Net Neutrality.
Kari	Dyrdahl	Given the economic inequality in this country, this is particularly wrong. Why should wealthier people have different access to the Internet, than the rest of us, who aren't wealthy?

Gunter	Dyrenforth	It is shameful and bizarre that this administration wants to turn the internet over to corporate interests. Ask yourself: If corporate interests had controlled the internet in 2008, would President Obama be in office today?
steve	dzielak

Keith	Eaton	this is only the begining. paying for email is next
Pat	Eberle	The internet is an important utility service that should not be sold to the highest bidder. Keep the internet free of speed restrictions or preferences.
Jan	Ebersole	the Federal Communications Commission (FCC) will decide the future of the Internet. Major telecom and cable companies are seeking unprecedented control over what you can see and say online. therefore, we lose.
Caroline	Ebong	
Robert	Eckel	It's OUR Public Utility!
Roger	Eddy	
Erica	Eden	There seems to be so much control in this world. Changing our internet is going to limit what we can see and overcharge us. Can't you just let us enjoy without limiting us by letting telecom and cable companies profit by this? Thank you.
Kirsten	Edey	
Roy	Edfast	Why ae we again favoring the wealthy. Do we need the pitchforks?
Jon	Edgar	Do NOT endanger Net Neutrality! Equality for everyone must prevail!
Bob	Edsall	Net neutrality for all. Keep big money out of control of the Internet.
Cassandra	Edson	This is the information age, and if we all can't share equally in access to information, we'll only return to a darker age. Instead, let's all move forward - together.
Mary Ann	Edson-Plumb	Net Neutrality is vital in the information age. Big companies should not get to determine what we access on the net nor how often we do it. Fast lanes for the few are an unacceptable limitation on all the rest of us.
William	Edwards	I contacted the FCC in this regard several weeks ago and received a response from the FCC chairman, pledging to keep the internet free and unencumbered. I fully intend to see that the FCC honors that pledge.
Louis	Edwards	Keep the playing field level. Deep pocket people already receive too many privileges from the government.

David	Ehrenkranz	It is unthinkable to me that we would allow some to be able to pay for faster access. It made sense phone companies were required to give everyone access to a land line. Apparently that concept is no longer alive. Shameful.
Akhtar	Ehtisham	
Jack	Eich	leave the internet alone. its fine the way it is. i vote every election and dont forget
Tony	Eichelberger	
Nancy	Eichler	Interests concerning the internet must not be controlled by telecom and cable companies to their sole benefit. The major, and only, benefactors of a free and open internet should be the public.

William	Elbring	The internet has thrived as it honors equality of access. Leave it that way!
Barry	Elder	Money does not equal democracy. An open internet does. Power of the few equals totalitarian authority. Keep the internet open.
James T	Elder Jr	Government is the only leveling influence in cultures. Without it, those who are motivated by greed and power will always control those concerned with more humanitarian goals. Don't allow an increasingly centralized media control our information.
Celia	Eldridge	REAL net neutrality is essential for THE COMMON GOOD which is essential for REAL democracy.
Sally	Elesby	
Joseph	Elias	Corporations are not trustworthy and will bring an end to the freedom of interchange of ideas and beliefs that is now on display on the internet.
Sylvia	Elias	The internet should remain available to everyone at the speed it is now without special interests having priority.
Leroy	Elkin	Please don't let corporate interests become the next example of income inequality.
Colin	Ellefson	
Susan	Ellenbogen Esq.	KEEP ACCESS TO THE INTERNET FREE AND EQUAL FOR ALL! DO NOT CREATE "FAST LANES" FOR THE PRIVILEGED FEW!
Nancy	Ellingham	Please preserve an open internet that works for all.
Martha	Ellington	So many things have been taken over by corporate structure! It is so important to keep some services open to the masses. The poor should be able to use the IT as well as those on fixed and limited incomes.
Catherine	Elliott	Our country works best when all voices are heard. Allowing big money to control the Internet is wrong. We need net neutrality. Please do the right thing for America!
Noel	Elliott	Please reclassify the internet as a common carrier, and do not allow "fast lanes". The big telecoms should not get any more incentives to monopolize communications.
Allen	Elliott	The internet was government instituted & as such should be equally accessible to all whether individuals or companies.
Shari	Ellis	Fast lanes will destroy the spirit of free market and free speech on the internet.
Bob	Ellis	The internet is our last best hope for keeping keeping an egalitarian approach to free speech

Betty and Martin	Ellyn	Please leave the Internet alone. The big boys always win, leaving the rest of us holding the bag.
Judith	Elmer	Fair is fair, and the proposed "fast" lanes are not fair.
Melissa	Elstein	The proposal submitted to the FCC by corporations, telecom and cable companies should be DENIED and REJECTED by the FCC. We need to keep the internet democratic and not allow money and corporate lobbying to create internet presence inequities.
Frances	Emanuel	We already pay IPs for their service, a lot. They should not be allowed to extort money from the businesses we are paying them to access. It sounds like the new mafia.
Glenn	Embrey	
Paul	Emerson	There should be a level playing field on a neutral internet that allows individuals to access all sites at the same speed, not just the ones that have paid for higher speed
Ben	Emery	The land of free and home of the brave ends our National Anthem. It appears any type of freedom we have left is being taken away from us by corporate rule.
Will	Emmons	Keep the internet neutral for all users and fine ISPs which provide poor service and then try to up-sell acceptable service for premium rates.
